

**neoFroxx**

*For a greener laboratory*

**Your innovations  
start with us.**

# Friendly, flexible and with a strong desire to support our customers!

We know what we are doing - our employees have been working in the chemical industry for a long time and contribute significantly to the success of neoFroxx with their **experience** and love for **chemistry**. However, both old and new members of our team strive to evolve together with **neoFroxx** to adapt to new market developments and offer the best possible products and service - we are here for you as a team!

# Laboratory Equipment & Accessories

neoFroxx supplies high quality instruments and equipment for various applications in molecular biology, cell biology and microbiology. All these instruments are state-of-art and provide innovative solutions that make daily laboratory work easier, faster and more reproducible. Our focus is on nucleic acid analysis – from extraction to qPCR analysis.

- ✓ **PCR & qPCR Devices**
- ✓ **Instruments for automated nucleic acid extraction**
- ✓ **Pre-filled plates for nucleic acid extraction**
- ✓ **PCR-based detection kits**
- ✓ **System for cultivation of obligate anaerobic bacteria**

## Open Source!

Our devices use open-source software. The software (temperature control, selection of reagents and kits to be used, various binding and absorption modes...) can be freely edited and thus perfectly adapted to the requirements of the users.

# MICRO? – Not at all! Products for Microbiology

We are prepared to support you in the cultivation, selection and identification of your microbes with a product portfolio of more than 6000 different media. In addition to literally all classical microbiological media and supplements, our product range includes a large number of special formulations for less frequented research areas. And that's not all...

- ✓ **Media for cultivation and enrichment**
- ✓ **Media for selection and identification**
- ✓ **Media for molecular applications**
- ✓ **Media for clinical diagnosis**
- ✓ **Media for food and water analysis**
- ✓ **Virus transport media**
- ✓ **Products for antibiotic susceptibility testing**
- ✓ **Products for microscopy and microbial staining**
- ✓ **Chemicals, Reagents for a wide variety of microbiological applications**

## HiVeg™ – 100 % Vegetable Peptones, Hydrolysates and Media

Not only interesting for vegetarians: Reduce your CO<sub>2</sub> footprint in times of global warming! HiVeg™ products are environmentally friendly, save resources and cost not more than comparable animal alternatives.

# Simply excellent! Products for Cell Biology

neoFroxx is your specialist for cell biology products of the highest quality. From serum to serum-free media, we offer a wide range of products for the cultivation of human and animal cells as well as for cytogenetics. For every user in the broad spectrum of cell biology we've got the right product – especially for those with the highest demands.

- ✓ Antibiotics
- ✓ Cell culture tested chemicals (e.g. amino acids)
- ✓ Classic cell culture media
- ✓ Media and reagents for cytogenetics
- ✓ Media and supplements for plant tissue culture
- ✓ Products for mycoplasma control
- ✓ Serum and serum substitutes
- ✓ Serum-free media

## Finally a working FBS replacement!

neoFroxx offers Human Platelet Lysate as a superior, xeno-free alternative to serum-supplementation. Our products are Fibrinogen depleted and ready to use. Especially recommended for human Mesenchymal Stem Cells.

# What would life science be without Biochemicals?

With neoFroxx you choose the perfect partner for high-quality biochemicals that are specially adapted to the requirements of research laboratories and biotechnological industries and suitable for applications in protein chemistry and molecular biology. Benefit from high-purity, highly specified fine chemicals and our customer-friendly flexibility in terms of package sizes!

- ✓ Amino acids
- ✓ Antibiotics
- ✓ Biological buffers
- ✓ Detergents
- ✓ Dyes und pH indicators
- ✓ Electrophoresis
- ✓ Enzymes and coenzymes
- ✓ Enzyme substrates and inducers
- ✓ Metabolites and natural products
- ✓ Molecular biology
- ✓ Nucleic acid isolation
- ✓ PCR
- ✓ Polymers
- ✓ Proteinase inhibitors
- ✓ Proteins
- ✓ Western blotting and ELISA

## You decide!

Our own products enable us to achieve the level of flexibility and customer orientation that we desire. A new packaging size? A different packaging? With a bow? – No problem!

# We trust in our Laboratory chemicals

Our selection of laboratory chemicals is focused on customers from chemical research and chemical production as well as users in the field of analysis and quality control. We offer a wide range of basic chemicals in various chemical qualities (from technical to ultrapure, p.A. to HPLC grades) for research and production purposes.

- ✓ Acids and Bases
- ✓ Amino acids
- ✓ Antibiotics
- ✓ Auxiliary chemicals
- ✓ Basic chemicals
- ✓ Carbohydrates
- ✓ Chemicals for synthesis
- ✓ Dyes and indicators
- ✓ HPLC solvents
- ✓ pH buffer solutions
- ✓ Pharma and food grades
- ✓ Polymers
- ✓ Salts
- ✓ Sequestrants (chelating agents)
- ✓ Solvents
- ✓ Surfactants
- ✓ Technical grade chemicals
- ✓ Volumetric solutions

## Made in Germany

This is how we meet best quality standards at competitive prices. Together with our customers we decide on the product range and constantly adapt this range to market requirements.

# Specialty Chemicals for Special Customers

Everything revolves around chemistry! But not for every requirement there is a suitable product available in the market. For chemicals that are not yet available at neoFroxx, the contract manufacturing or product development departments are ready to help. We are happy to produce products according to your own formulations. Contact us. Together we will find a solution!

- ✓ Contract Manufacturing
- ✓ Product Developments
- ✓ Recycling of organic solvents
- ✓ OEM production

## Flexibility is our strength!

In addition to the high quality of our products, we build on the best possible customer service. We are happy to produce tailor made products according to your wishes.

# neoFroxx – we have the right solution for you!
